

3 Postdoc Fellowships

Supported by the Fritz Thyssen Stiftung, the Cologne Graduate School in Management, Economics and Social Sciences awards three post-doctoral fellowships. Applicants from all fields of Economics, Management and Social Sciences who have finished their PhD are invited to apply.

We invite applications with a strong research background who work in a field related to one of the existing key research areas at our Faculty; please consult www.wiso.uni-koeln.de. In particular, we encourage applications from researchers interested in doing interdisciplinary research at the boundaries between Economics, Management and/or Social Sciences. Candidates should also have a clear idea of potential research partners within our Faculty.

The two-year fellowship includes a monthly fellowship of EUR 1.700 plus allowances for international travel, experiments, etc. Office space and administrative support will be provided by CGS.

Applicants should submit a statement outlining their research project and their motivation for joining the UoC, a detailed curriculum vitae, and a list of publications in electronic form to weiler@wiso.uni-koeln.de. Two recommendations need to be sent directly to the above mentioned email. Application deadline is: April, 30, 2013.
